You said:

I detached and painted a texture. The paint appears on every face using the same source texture except at first on the one detached. When i press fps nav afterwards the view resets and the detached one has paint, too. When i try another face with a differen source texture afterwards no paint is seen even on other faces with the same source texture and also not after going to fps view.

bpy.ops.paint.texture_paint_toggle()

The textures listed in the texture editor:
QSS_TEX_001_wwood1_5 source texture 1
QSS_TEX_002_afloor3_1 source texture 2
QSS_TEX_003_wceiling5 source texture 3 is completely full with paint
QSS_TEX_004_city6_7 source texture 3

QSS_Face_00013_Paint content of source 1 but wrapped around and dimension of the second face detached. no paint visible

QSS_Face_00037_Paint content of source 3 (without paint) but with dimension of the first face detached. lots of paint
QSS_Face_00038_Paint content of source 3 (without paint) but with dimension of the first face detached. lots of paint but different patterns
QSS_Lightmap_test02_compile.bsp content of source 1 dimensions of source file lots of paint
QSS_Lightmap_test02_compile.bsp_QSS_OriginalBSP content of source 1 dimensions of source file lots of paint with same pattern as above
QSS_MISSING_TEXTURE_WHITE white texture

You said:

where is the download for the zip? You can also give me a script to collect data for you if that helps. my quake folder is /mnt/sde1/FPS/IdTech2/QuakeDev/ and the bsp is at /mnt/sde1/FPS/IdTech2/QuakeDev/id1/maps/test02_compile.bsp it is not possible to give you accesst to blender for your own test with the current setup?
